PLATINIUM laminated flooring is available in a couple of collections. The collections differ from one another with regard to the use features, such as the thickness of the base board, abrasion class and **aesthetics**, such as size, surface texture and colors. The use features ensure durability and long use time while the aesthetics features make it possible to fulfill the expectations and individual needs of our customers.

The thickness of the base board determines the durability of the flooring, its resistance to various loads.

The abrasion class determines the resistance of the flooring to abrasion coming from everyday usage. Platinum flooring is available in the two highest abrasion classes **AC4** and **AC5**, which guarantees its longevity, and the use durability in places with even very high traffic load.

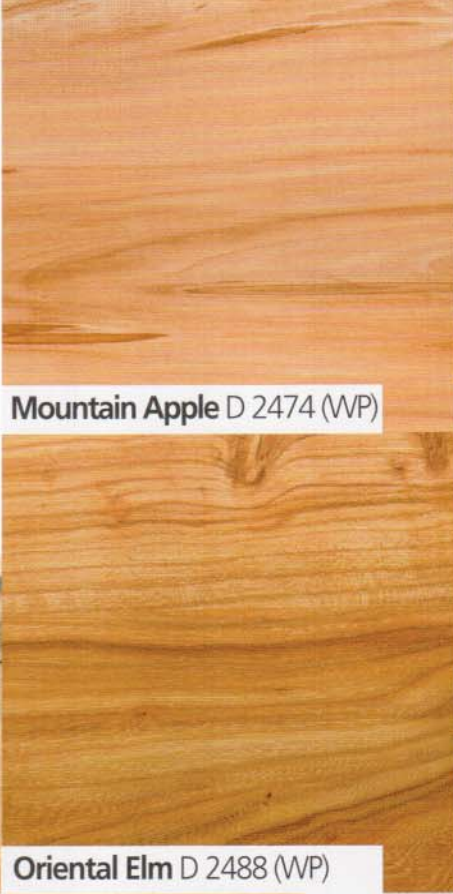

Size is one of special features of the Platinum collection. The selection of the length and width of the panel significantly determines the nature of an interior. Additionally the edges can be bevelled (so called V – groove), which emphasizes the panels line, and puts a geometrical design on the floor.

Surface texture – Platinum flooring is characterized by a variety of textures such as true wood texture (WG), wood texture with gloss (WP), synchronic pores ideally rendering wood texture (ER), manually planned texture (HS), matt wood texture (MO) and matrix structure (MX) - deep pressed mat wood structure (MX).

Colors – creating the mood and underlining the character – from the classic oaks to the exotic wood colors.

Platinum laminate flooring is covered by **25 and 15 year warranty**.

Mountain Apple D 2474 (WP)

Italian Walnut D 2486 (WP)

Oriental Elm D 2488 (WP)

Termo Ash D 2325 (WP)

Wenge D 2326 (WP)

Oak Belfort D 2616 (WP)

Smoked Oak D 2740 (WP)

Vienna Oak D 2717 (WP)

EXCELLENCE

EXCELLENCE is pure elegance.

The flooring wins your heart with a delicate surface gloss, perfectly combining style with the wealth of colors. It is the flooring with an increased durability and scratch resistance of the surface.

Sycamore D 2372 (WG)

Oak Geneve D 2228 (WG)

Jatoba D 2283 (WG)

LINEA

LINEA collection is surrounded by an exotic climate.

Unusual shape gives a distinct character to the interiors, and beautiful colors of wood make it complete. Additional beveled edges underlines its unique look.

LINEA PLUS

LINEA PLUS – collection includes 3 different oak patterns of diversified decors from rustic to modern one. Format and the original surface textures dedicates this collection to those who look for a combination of modernity and tradition.

Oak Retro D 2747 (HS)

Oxford Oak D 2461 (ER)

Vienna Oak D 2717 (WP)

PROGRESS is a collection dedicated to those who love simplicity and highest durability. The flooring is built on a solid 10 mm base HDF, it emphasizes the strength and distinctness of the interior. Available in two unique surface textures: synchronic pores and handscraped.

Oak Retro D 2747 (HS)

Oklahoma Oak D 2432 (ER)

Mountain Apple D 2474 (HS)

Parisienne Oak D 2323 (ER)

PROGRESS

MASSIVE

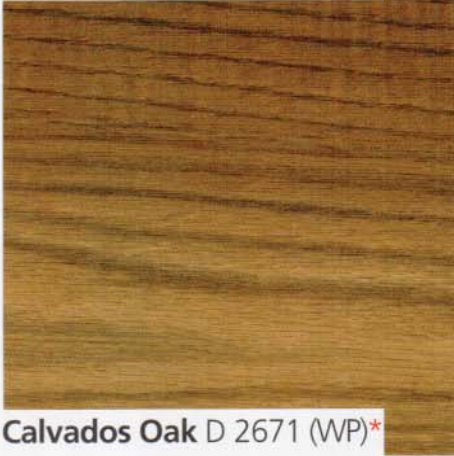

MASSIVE is a synonym of reliability given by the nature. Flooring with the highest durability, highest abrasion class, where the unusual wood stability is ensured by 10 mm base board. New designs ensures natural charm in the interiors and introduces the feeling of unshaken harmony and warmth.

Silesia Oak D 2669 (WP)

Pomerania Oak D 2624 (WP)

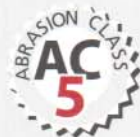

Calvados Oak D 2671 (WP)*

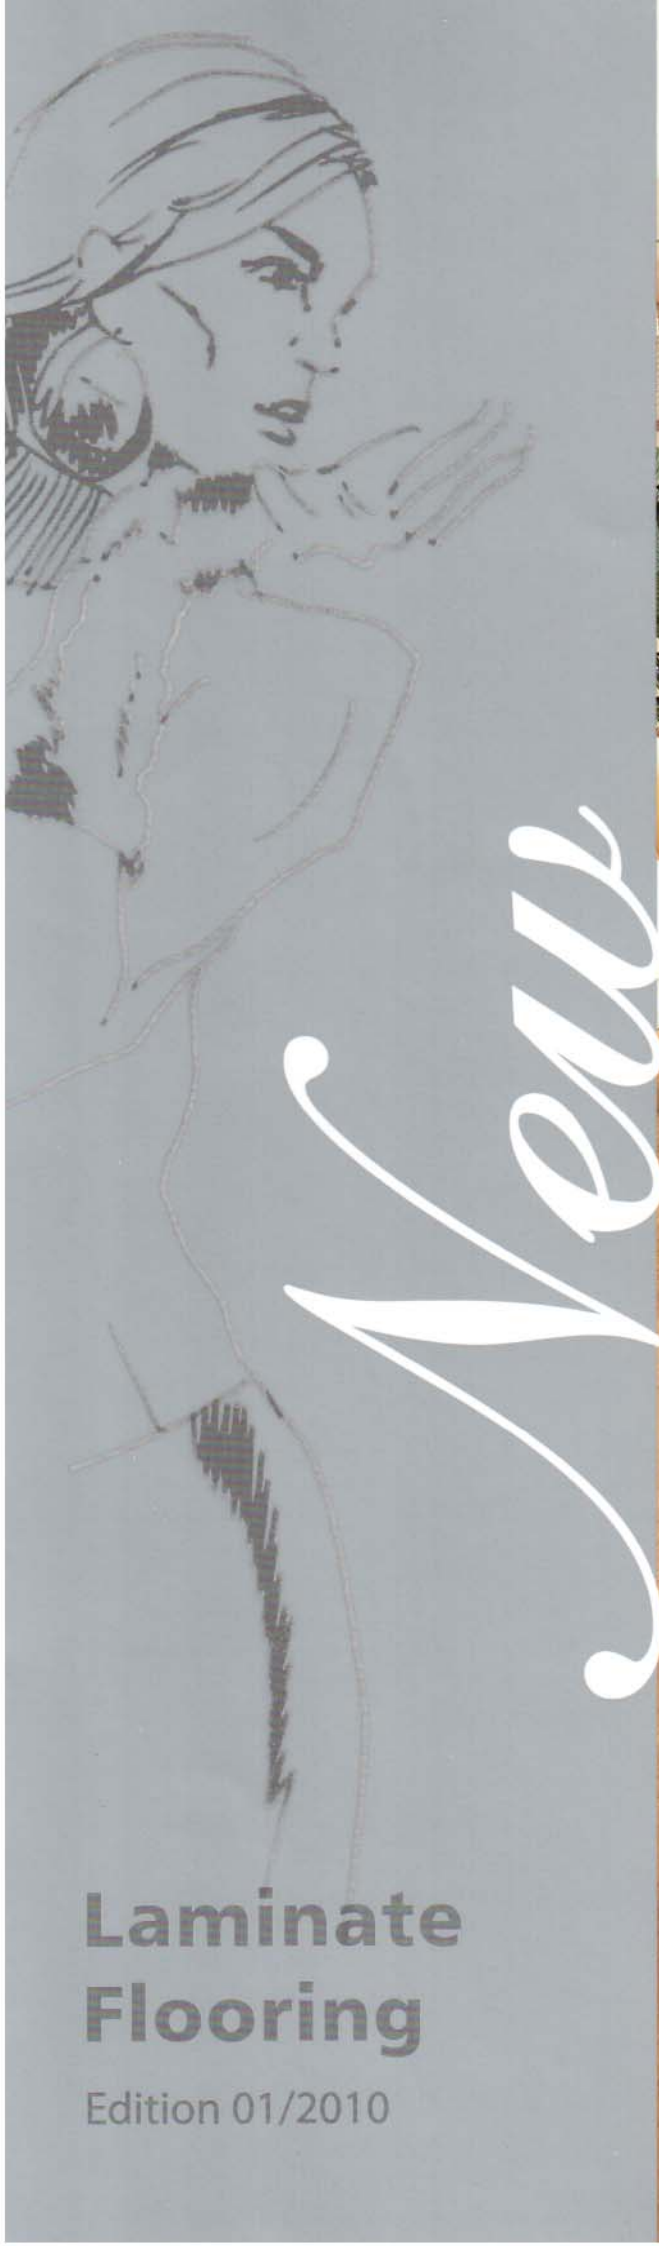

Canadian Ash D 2670 (MX)*

Victoria Oak D 2626 (MX)*
